

## Gretchen Sisson, PhD

### Sociologist

Gretchen Sisson is a qualitative sociologist whose research focuses on social constructions of parenthood, specifically examining teen pregnancy and young parenthood, infertility and assisted reproductive technologies, and adoption and birth motherhood. Her current research with ANSIRH focuses on representations of abortion and reproductive decision-making in popular culture, including film and television. Dr. Sisson's past work on reframing models of teen pregnancy prevention has been published in the *Journal of Sexuality Research and Social Policy*. She

received her BA from Amherst College and her PhD from Boston College.

### Research projects and studies

**Abortion Onscreen.** At ANSIRH, we are interested in not only abortion as a healthcare and policy issue, but also in how it operates in cultural conversations and narratives. American film and television—the screen—is one place where cultural stories about abortion play out. Abortion Onscreen is a research program aimed at investigating these stories and understanding their effects on broader social understandings of abortion.
