ABORTION ACCESS in LOUISIANA 2018

Since this research was published in 2015, two of the five Louisiana clinics have closed, leaving only three abortion clinics in this state.

The updated data below summarize how far women have to travel now and if one, two, or all three remaining clinics close as a result of the Admitting Privileges law.

MORE WOMEN WILL need to TRAVEL over 150 MILES

Currently, 1% of Louisiana women must travel over 150 miles for an abortion. If all 3 clinics close, 71% of Louisiana women will have to travel over 150 miles for an abortion.

ansirh.org/LouisianaAccess
Percentage of Louisiana women of reproductive age living specified distances away from the nearest abortion clinic as of December 2018

Current

- >50 miles from nearest clinic: 45%
- >150 miles from nearest clinic: 1%

If the clinic in Orleans closes

- >50 miles from nearest clinic: 72%
- >150 miles from nearest clinic: 1%

If the clinic in E. Baton Rouge closes

- >50 miles from nearest clinic: 63%
- >150 miles from nearest clinic: 11%

If the clinic in Caddo closes

- >50 miles from nearest clinic: 54%
- >150 miles from nearest clinic: 16%

If the clinics in Orleans and E. Baton Rouge close

- >50 miles from nearest clinic: 91%
- >150 miles from nearest clinic: 53%

If the clinics in Caddo and Orleans close

- >50 miles from nearest clinic: 81%
- >150 miles from nearest clinic: 16%

If the clinics in Caddo and E. Baton Rouge close

- >50 miles from nearest clinic: 73%

If all LA clinics close

- >50 miles from nearest clinic: 100%
- >150 miles from nearest clinic: 71%

IF ALL THREE LOUISIANA CLINICS CLOSE, 71% of WOMEN will be OVER 150 MILES AWAY from the NEAREST ABORTION CLINIC, and 100% will be OVER 50 MILES AWAY.
